

## A COOPERATIVE STRATEGY FOR RESOURCE MANAGEMENT & PROTECTION

December 23, 2010

Mr. Joe Yun, Program Manager California Department of Water Resources, DIRWM

Transmitted via pdf and MS Word attachments to e-mail, DWR\_IRWM@water.ca.gov

Subject: Comments on Draft Funding Recommendations Prop. 84 IRWM Planning Grants

Dear Mr. Yun:

The Calleguas Creek Watershed Management Plan Steering Committee appreciates the opportunity to provide comments on the Proposition 84 IRWM Planning Grant draft funding recommendations. As a partner in the Watersheds Coalition of Ventura County IRWM regional planning area, the Steering Committee supports the draft funding recommendations for the regional planning areas within the Los Angeles - Ventura hydrologic funding area.

The draft funding recommendations will foster coordination between watersheds and regional planning areas within Ventura and Los Angeles counties to further the State's water policy goals. We appreciate that the IRWM review team found the Watersheds Coalition of Ventura County's application merited funding as proposed in the draft recommendations.

Sincerely,

Henry Graumlich, Chair

Calleguas Creek Watershed Steering Committee

and Manager of Strategic Planning, Calleguas Municipal Water District
